

PROFESSIONAL TAR-BASED DRIVEWAY SEALING

Now is the best time to protect your driveway from the elements, with a professional, commercial-grade, tar-based driveway sealant.

Recommended to be done every two years, driveway sealing will not only significantly enhance your curb appeal, but also protect your driveway, and extend its longevity.

We are now equipped with professional equipment and materials, our team is WHMIS certified, and we are ready to go with extra special rates.

Our two plans:

“Just Seal”

If your driveway is in a decent shape, and have no cracks - all you need is a thorough driveway clean up, and a sealant application.

“Fill and Seal”

Older, or high-traffic driveways are quick to form cracks. It is important to fill these cracks with a special crack-filler, to assure no further expansion, and complete protection from the elements.

Driveway Size	“Just Seal”	“Fill and Seal”
Single Car Driveway (1 Car Length)	\$100 + HST	\$145 + HST
Double Car Driveway (2 Car Lengths)	\$155 + HST	\$195 + HST
4 Car Driveway (3 Car Lengths)	\$200 + HST	\$240 + HST
6 Car Driveway (5+ Car Lengths)	\$245 + HST	\$295 + HST
